

Treasure Chest

**20 keys are placed in a bag. 19 don't open the treasure chest, one does.
One key is drawn at a time and tested. If it opens the lock, you win.
If not, then it is set aside. Eventually the key is found.
The odds get better every time. Lots of fun!**

1st Prize: Player's key opens treasure chest.

Consolation Prize: Key does not open treasure chest.
